at *Epheſus*; much more vivid than thoſe 4 tall ſquare Pillars at *Tadmore* (in its middle age *Palmyra*) which are each of them but of, I think, one piece; whilſt all the reſt, exceeding many, of another ſort of ſtone, are of ſeveral pieces and round: If you'l attribute the clearneſs of their Complexion, in part to the Air, which corrodes them eſpecially upon the N. and Eaſt; I impoſe not upon the liberty of your Reaſon.

If the *Ichnography* of them (which I deſire you to reſerve for me) won't excuſe me from any farther deſcription, I beg your pardon that I have ſaid thus much, and hazarded my judgment to demonſtrate my Affection, how much I am, and endeavour to be,

Your faithful Friend

And humble Servant,
